

# More Hope, More Healing

Your partner in your local cancer care

Filip Troicki, MD, Radiation Oncology  
(11 years of service)

# Coordinated, leading-edge cancer care **in one location**

One in two men and one in three women will be diagnosed with cancer in their lifetime, according to the American Cancer Society. The good news is that more than 18 million Americans with a history of invasive cancer were alive on January 1, 2022, most of whom were diagnosed many years ago.

- The most common cancers are breast, lung, colon and rectum, and prostate cancers.
- Cancer mortality is reduced when cases are detected and treated early.
- Advances in cancer therapy are increasing prevention and survival rates, and offering hope for a cure to more people.

**During a time when cancer patients may feel uncertain, SSM Health strives to instill courage, give support, and provide quality, local care to individuals as they face cancer diagnoses and treatment.**

SSM Health Cancer Care, Greater Fond du Lac Team

**SSM Health staff create a personalized plan of care for each patient's specific situation, and offers a full continuum of cancer care services, including:**

- Medical oncology
- Hematology
- Radiation oncology
- Nutrition counseling
- Treatment coordination with oncology navigator
- Complimentary wig program
- Genetic testing
- Physical therapy and rehab services
- Clinical trials

Thanks to generous ongoing contributions, the Agnesian HealthCare Foundation has supported growth and advancement of Cancer Care services for decades through funding building improvements, complementary services like acupuncture, massage therapy and the patient wig program, and investing in innovative therapies and clinical equipment.

Michael Jones, MD, Hematology and Medical Oncology (27 years of service)  
and Laurane B., patient

Michael Vander Kooy, MD, Radiation Oncology  
(26 years of service)

# Cancer Care facility expansion

As the only accredited cancer center in the area, SSM Health Cancer Care has seen tremendous changes and growth during its 30 years in its existing facility, serving patients from more than 29 counties in Wisconsin. In that time, SSM Health Cancer Care has experienced a significant increase in patients, overall services, and technology.

The \$15 million expansion project planned for the 480 E. Division Street location reaffirms SSM Health's ongoing commitment to comprehensive, local cancer care in the Fond du Lac and surrounding areas.

## Highlights of the expansion include:

- A 12,000-square-foot addition, plus remodel of existing areas
- New, welcoming entry, registration area, nourishment space, and family lounges
- Addition of ambulatory infusion services
- Space for four private infusion rooms and 20 semiprivate
- On-site laboratory, pharmacy, physical therapy, massage therapy, boutique and wig fitting room
- Enhanced patient, employee, and provider spaces to accommodate growth
- Healing garden for respite and reflection
- Additional dedicated parking, conveniently located adjacent to facility

## Your gift will:

- Help us grow to meet the increased demand for cancer care, close to home
- Support building improvements that offer state-of-the-art, warm, and healing environments
- Enhance the patient experience with special service areas for acupuncture, massage therapy, physical therapy, and complimentary custom wig fitting
- Support our neighbors, friends, and family with more hope and more healing on their cancer care journey

**Your gift makes a significant impact on local cancer care.  
Your contribution to the Agnesian HealthCare Foundation  
stays local and serves patients in the Fond du Lac area.**
